MAIL / DMS

Dear Mr. Terreni:

Ref: Docket No. 2004-219-E
Progress Energy vs. Weaver

You are the "Captain of the Ship" and as such you are personally liable and responsible for your Agency's failure to duly direct the N.C. billion dollar utility company in their continued violation of my S.C. consumer's rights which are repeatedly violated under your mandate.

Please, no more administrative delays! I am an eighty years old woman, ill with cancer and I must have electricity upon my return from DUMC cancer clinic just before Christmas. Enclosed is a copy of my medical certificate.

If you do not act, I shall appeal to the Governor with total medical support and shall request the State Legislature for a Hearing on this matter.

So, please act now. Issue clear instructions to the utility to install an electric meter at my residence at 1253 Harllees Bridge Road (which they removed), and to open an account in my name and supply me electricity, no later than December 15th, 2005.

Please mail me any directives concerning expediting this matter.

Thank you.

B. Weaver

Encl. Copy of Medical Certificate from Dr. Wallace.

To: Progress Energy
Re: Beatrice Weaver

Beatrice Weaver is an elderly white female who has recently had two major cancers. Patient suffers with chronic obstructive pulmonary disease, and she requires an oxygen concentrator and a C-Pap mask in order to live. She has these instruments at her house and these require electricity. Through the winter she will be living at her house which presently does not have electricity. She will require electricity in order to run her heat, oxygen concentrator and C-Pap mask.

If further information is needed, please feel free to contact me.

Sincerely,

Phil Wallace, MD

JPW/mp
